R410A Residential Air Conditioning

COMFORT

The latent capacity of an air conditioning system determines how well it can remove humidity from the air in your home. **Thermal Zone Systems are designed to have very high latent capacity.** With lower humidity levels inside, you can remain cool and comfortable, no matter what is happening outside.

Thermal Zone outdoor units are designed with a direct drive fan & unique grille that produce **very low noise levels**. This is a feature that you and your neighbors will appreciate.

Smaller dimensions and a **neutral paint color** allow your Thermal Zone air conditioning unit to blend in with your home's siding & landscaping.

AFFORDABLE

With **easy access panels** and **standardized parts**, you can be sure that servicing your Thermal Zone air conditioning system will be fast and simple, keeping maintenance costs down to a minimum.

Your new Thermal Zone air conditioning system has a **10 Year Limited Warranty** on all parts so you can enjoy many years of worry-free comfort.

Financing Options Are Available. Ask your Thermal Zone dealer, or go to www.ThermalZone.com for details.

RELIABLE

The **Legendary Copeland Scroll Compressor**™, which delivers proven durability

and enhanced efficiencies, is at the heart of every Thermal Zone Central Air Conditioning System.

Factory installed thermal expansion valves (standard on matching indoor units) allow your Thermal Zone air conditioning system to continually adapt to conditions inside your home. As a result, you will be more comfortable, and the system does not work any harder than it needs to.

The heavy duty steel cabinet is rated to withstand a 500 hour salt spray test. The cabinet will protect your investment against damage from yard hazards & severe weather, so that it can operate at peak performance.

EFFICIENT

With efficiency ratings that range from **13 to 16 SEER**, Thermal Zone has the system that is perfect for you.

AHR CERTIFIED

Ozone Friendly R410A Refrigerant

Introduced in 1995, R410A is the most common refrigerant used for new HVAC equipment in North America today.

R410A has Zero Ozone Depletion Potential

R410A Models Available

Model	Standard Rating	Regional Availability**
TZAL3-N	13 SEER	North Only
TZAL4-S	14 SEER	North/South
TZAL4-W	14 SEER	ALL
TZAL6	16 SEER	ALL

TZAL6 models have a two stage compressor. Two stage units operate at a lower BTU/h capacity when the weather is mild, and at full capacity when the weather is more extreme.

Many systems meet or exceed Energy Star requirements. Ask your Thermal Zone dealer for help selecting the system that is right for you.

*10 Year Limited Parts Warranty on all

Thermal Zone R410A systems. Complete warranty details are available at www.ThermalZone.com or from your Thermal Zone dealer.Timely registration is required in most states.
